

Making a Volcano

- You will need :
- An empty 2 litre plastic bottle
 - PVA glue
 - Vinegar
 - Green paint
 - Bicarbonate of Soda
 - Newspaper or scrap paper
 - A plastic tray
 - Red food colouring (optional)

- Equipment needed :
- A saw or sharp knife
 - A paintbrush

Instructions :

- 1) Cup the top 8cms off the plastic bottle. (**You will need an adult to help you with this**)
- 2) Take the lid off the bottle.
- 3) Glue lid to plastic tray, and when dry re-attach bottle.
- 4) Build up the side with screwed up paper, and then paper mache the top layer to make smooth.
- 5) Mix some paint with PVA glue, about 50 / 50, and paint whole volcano.
- 6) Now put some of the bicarbonate of soda in the base, and add the food colouring. Then put in some vinegar and watch you volcano explode.

BE CAREFUL FOOD COLOURING STAINS.
